### **NOTES TO FINANCIAL STATEMENTS**

#### 1. Basis of Accounting, Use of Estimates, and Summary of Significant Accounting Policies:

#### A. Basis of Accounting

ACA Financial Guaranty Corporation ("ACA" or the "Company", a Maryland domiciled financial guaranty insurance company – see Note 21.C.(4) for a description of financial guaranty insurance) prepares its statutory basis financial statements in accordance with accounting practices prescribed or permitted by the Maryland Insurance Administration (the "MIA"). The MIA recognizes only statutory accounting practices prescribed or permitted by the State of Maryland for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under insurance law. The National Association of Insurance Commissioners ("NAIC") Accounting Practices and Procedures manual ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of Maryland. The state has adopted certain prescribed accounting practices that differ with those found in NAIC SAP. The Maryland Insurance Commissioner has the right to permit other specific practices which deviate from prescribed practices.

There are no differences between amounts reported in the accompanying financial statements, which are prepared as prescribed or permitted by the MIA, and NAIC SAP.

In connection with ACA's Restructuring Transactions and Global Settlement Agreement in 2008 (see Note 21.C.(2)), the Company made a cash payment and issued non-interest bearing surplus notes with a principal amount of \$1 billion to settle counterparty claims. Due to the unique nature of the transaction, and in consultation with the MIA, the Company recorded the issuance of surplus notes with a fully offsetting contra account. This accounting treatment has resulted in a net balance of \$0 reported as surplus notes. Payment of principal, or any other distributions, on the surplus notes may not be recognized until approved by the MIA. Upon the MIA's approval, unassigned funds (surplus) and the contra account will be adjusted to reflect the amount approved. Upon payment, the principal amount of the surplus notes would be reduced by the amount of such payment.

#### B. Use of Estimates

The preparation of financial statements in conformity with accounting practices prescribed or permitted by the MIA requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results may differ from estimates and those differences may be material.

#### C. Summary of Significant Accounting Policies

(1) Premiums charged in connection with the issuance of the Company's guaranties are received either upfront or in installments. Such premiums are recognized as written when due. Installment premiums written are earned ratably over the installment period, generally one year or less, which is consistent with the expiration of the underlying risk or amortization of the underlying insured principal. Upfront premiums written are earned based on the proportion of principal and interest scheduled to be paid on the underlying insured obligation during the period, as compared to the total amount of principal and interest to be paid over the contractual life of the insured debt obligation. When a full loss on a guaranteed obligation is reflected in the financial statements and no further variability exists as to the measurement of the loss, the remaining unearned premiums are recognized as earned since the Company is no longer exposed to insurance risk. Unearned premiums, net of prepaid reinsurance premiums, represent the unearned portion of upfront and installment premiums written.

In addition, when an insured issue is retired early, is called by the issuer or is, in substance, paid in advance through a refunding accomplished by placing U.S. Government securities in escrow (hereafter referred to collectively as "Refundings"), the remaining unearned premium revenue relating to such insured issue is earned at that time since there is no longer risk to the Company. For the three month periods ended March 31, 2022 and 2021, the Company recorded earned premiums of \$0 million and \$0.4 million, respectively, related to Refundings.

- (2) Short-term investments are stated at amortized cost.
- (3) Bonds and loan-backed securities assigned an NAIC Designation of 1 or 2 are valued at cost, adjusted for amortization of any premium, or accretion of any discount, which is calculated using the constant yield method. Bonds and loan-backed securities assigned an NAIC rating of 3 or lower are valued at the lower of amortized cost (adjusted for amortization of any premium, or accretion of any discount, which is calculated using the constant yield method) or fair value. The prospective method is used to adjust book value for loan-backed securities. Clearwater Analytics, LLC, a third party investment accounting service provider uses Bloomberg L.P. as the source to determine prepayment assumptions.

# **NOTES TO FINANCIAL STATEMENTS**

The following table summarizes the carrying amount of the Company's bonds by NAIC Designation at March 31, 2022:

NAIC Designation 1	\$ 71,840,316
NAIC Designation 2	18,911,470
NAIC Designation 3	566,293
NAIC Designation 4	-
NAIC Designation 5	1,144,226
NAIC Designation 6	56,690,892
Total	\$ 149,153,197

Realized capital gains and losses on the sale of investments are determined on the basis of specific identification and are included in net income. Decreases in the fair value of bond and stock investments below their carrying value which are determined to be "other than temporary" are reflected as realized capital losses and are recorded in the Statement of Income. Factors considered in evaluating whether a decline in value is other than temporary include: 1) whether the decline is attributable to credit related or interest rate related factors, 2) whether the decline is substantial; 3) the amount of time that the fair value has been continuously less than cost; 4) the financial condition and near-term prospects of the issuer; and 5) the Company's ability and intent to retain the investment for a period of time sufficient to allow for an anticipated recovery in value. For the three month periods ended March 31, 2022 and 2021, the Company recorded no "other than temporary" adjustments.

Net investment income includes interest and dividends received and accrued on investments. It also includes amortization of any purchase premium or discount using the constant yield method, adjusted prospectively for any change in estimated yield to maturity. Investment income is recognized when earned. Investment income due and accrued that is deemed uncollectible is charged against net investment income in the period such determination is made, while investment income greater than 90 days past due is non-admitted and charged directly to surplus. Net investment income is reduced by investment management expenses.

- (4) The Company has no investments in common stock or other similar equity interests, other than the common stock or other similar equity interests of subsidiary, controlled or affiliated insurance and non-insurance entities. See (7) below.
- (5) The Company has one preferred stock holding with a carrying value of zero at March 31, 2022.
- (6) The Company has no investments in mortgage loans.
- (7) Investments in the common stocks or other similar equity interests of its subsidiary, controlled or affiliated insurance or non-insurance entities are accounted for and reported in accordance with the equity method as prescribed by SSAP No. 97, "Investments in Subsidiary, Controlled and Affiliated Entities", and valued in accordance with section 3(ii)(D) of the NAIC Valuations Securities manual. Changes in the carrying value of such investments are reflected as unrealized capital gains or losses in capital and surplus. Dividends received from such investments are reported in investment income. ACA Service L.L.C. derives its earnings from its wholly owned subsidiary, ACA Management, L.L.C. ("ACA Management"). ACA Management receives management fees on asset management contracts which were sold on a forward revenue sharing basis in connection with the termination of the company's prior CDO/CLO asset management business. For the three month periods ended March 31, 2022 and 2021, investment income includes dividends received from ACA Service L.L.C., relating to its share of fees from certain managed CDO's of \$0 thousand and \$15 thousand, respectively. See Note 6 below.
- (8) The Company has no investments in joint ventures.
- (9) The Company has no investments in derivatives.
- (10) The Company has no premium deficiencies.
- (11) The Company records a loss with respect to an insurance guaranty upon a payment default by the issuer of the insured obligation (a payment default is generally considered the incident which gives rise to a claim under the Company's insurance policies and triggers loss recognition relating to the incident). The Company may also establish a reserve component for incurred but not reported claims ("IBNR"). The Company's liability for losses (also known as "loss reserves", "reserves for unpaid losses", "case reserves", or "case basis reserves"), reported on the accompanying Statement of Assets, Liabilities, Surplus and Other Funds, represents the best estimate of the present value of the Company's ultimate claim payments under the policy, net of its best estimate of the present value of any recoveries from salvage and subrogation rights under the policy, remaining unpaid at the balance sheet date. Loss adjustment expenses ("LAE") are recorded by the Company in regard to insurance guaranties when costs are incurred or expected to be incurred to remediate probable losses under its policies. Accordingly, LAE may be recorded on policies for which claims have been paid or losses have been recognized, as well as on policies where no claim payments have been made or losses have been recorded but may be incurred in the future. LAE represents the estimated ultimate cost of remediating losses or potential losses under policies. The Company does not discount LAE.

Losses on the Company's insurance guaranties and related case reserves are determined using cash flow models to estimate the net present value of the anticipated shortfall between (i) scheduled payments on the insured obligation and (ii) anticipated cash flow from the obligor or the collateral supporting the obligation and other anticipated recoveries or cash flows. A number of quantitative and qualitative factors are considered when determining whether the Company will incur a loss and the amount of any case reserve. These factors may include the creditworthiness of the underlying issuer of the insured obligation, whether the obligation is secured or unsecured, the projected cash flow or market value of any assets that collateralize or secure the insured obligation, and the historical and projected recoveries from such assets. Other factors that may affect the actual ultimate loss include the state of the economy, market conditions for municipal bond issuance, changes in interest rates, rates of inflation, willingness of the obligor or sponsor to honor its commitments and the salvage values of specific collateral. Such factors and management's assessment thereof will be subject to the specific facts and circumstances associated with the specific insured transaction being considered for loss recognition. Losses and related case reserves are discounted at a rate reflecting the weighted average rate of return on the Company's admitted assets at the end of the year. Recognition of losses and related case reserves requires the use and exercise of significant judgment by management, including estimates regarding the amount and timing of a loss on an insured obligation. Actual experience may, and likely will, differ from those estimates and such difference may be material due to the fact that the ultimate dispositions of claims are subject to the outcome of events that have not yet occurred, are difficult to predict, and, in certain cases, will occur over many years in the future. Examples of these events include changes in the level of interest rates, credit deterioration of guaranteed obligations,

# **NOTES TO FINANCIAL STATEMENTS**

changes in the value of specific assets supporting guaranteed obligations, and changes in the expected timing of claims payments and recoveries, and the amounts of expected claims payments and recoveries. Any estimate of future costs is subject to the inherent limitation on the Company's ability to predict the aggregate course of future events. It should therefore be expected that the actual emergence of losses and LAE will vary, perhaps materially, from any estimate.

Reference should be made to Note 21.C.(1) for further information regarding significant risks and uncertainties relating to the Company's accounting policy for loss recognition on its in-force insurance guaranties, as well as in regard to losses expected to be incurred by the Company on its credit quality classification 4 insurance guaranties which have not yet been recorded in the accompanying Statement of Assets, Liabilities, Surplus and Other Funds because a payment default by the issuer of the insured obligation has not yet occurred.

- (12) A statutorily mandated contingency reserve is established net of reinsurance by an appropriation of unassigned surplus and is reflected in "Aggregate write-ins for liabilities" in the Statement of Assets, Liabilities, Surplus and Other Funds. This reserve is calculated as the greater of a prescribed percentage applied to original insured principal or 50% of premiums written, net of ceded reinsurance. The prescribed percentage varies by the type of business. Once the reserve is calculated, as described above, it is incrementally recognized in the financial statements over a prescribed time period based on type of business. Under SSAP 60, contributions to the contingency reserve may be discontinued if the total contingency reserve already recorded exceeds a calculated amount based upon unpaid principal guaranteed and prescribed percentages by bond category. The Company's established contingency reserve is in excess of this calculated amount. The Company has discontinued its contributions in the fourth quarter of 2014. Reductions in the contingency reserve may be recognized under certain stipulated conditions, subject to the approval of the MIA. In May 2015, the Company requested the MIA's approval to release contingency reserves equal to the amount in excess of the calculated maximum amount at December 31, 2014. The MIA denied the request in November 2015. In July 2018, the Company requested the MIA's approval to release contingency reserves equal to the amount in excess of the high-end of the off-balance sheet reserve range. In October 2018, the Company revised its request to reflect an updated off-balance sheet reserve range. In June 2019, the Company received the MIA's approval to release \$32.0 million of its contingency reserve. In July 2019, the Company made another request to release additional contingency reserves that was revised in January 2020. In November 2020, the Company received the MIA's approval to release \$38.3 million of its contingency reserve. In December 2021, the Company received the MIA's approval of its October 2021 request for a contingency reserve release of \$6.1 million.
- (13) There has been no change to the Company's capitalization policy.
- (14) The Company has no pharmaceutical rebate receivables.
- (15) For claims related extra-contractual obligations and bad faith contingency losses stemming from lawsuits, the Company recognizes a loss contingency when it determines that an estimated loss is deemed probable to occur and can be reasonably estimated. The Company recognizes a gain contingency when settled.
- (16) The Company discloses restrictions placed upon its assets in Note 5(l). Currently there are two types of restrictions that apply to the Company's transactions, (1) admitted assets, typically bonds and cash equivalents, on deposit with states, and (2) a non-admitted receivable relating to a lease security deposit.

#### 2. ACCOUNTING CHANGES AND CORRECTION OF ERRORS

Not applicable.

#### 3. BUSINESS COMBINATION AND GOODWILL

The Company was not party to any business combinations and has not recorded any goodwill.

#### 4. DISCONTINUED OPERATIONS

The Company had no discontinued operations.

#### 5. INVESTMENTS

### A. Mortgage Loans

The Company had no investments in mortgage loans or mezzanine real estate loans as of March 31, 2022 and December 31, 2021.

### B. Debt Restructuring

# (1) - (4) Not applicable

As a result of claims paid under certain of its insurance policies, the Company has received salvage in the form of investment securities. Such investment securities represent restructured debt issued in place of that originally guaranteed by the Company. The Company has recorded such investment securities at fair value at the date received. The aggregate carrying value of such restructured debt as of March 31, 2022 and December 31, 2021 was \$21.4 million and \$23.5 million, respectively. The Company has no other restructured debt and has not been a party to a troubled debt restructuring by virtue of its ownership of its invested assets.

#### C. Reverse Mortgages

The Company does not invest in reverse mortgages.

#### D. Loan-Backed Securities

(1) Prepayment assumptions are derived from an average of those forecast by a number of Wall Street dealers as tabulated by Bloomberg L.P. and referred to as Bloomberg consensus estimates.

# **NOTES TO FINANCIAL STATEMENTS**

- (2) During the 3 month period ending March 31, 2022, the Company did not recognize any other than temporary impairment charges on loan-backed securities.
- (3) Not applicable.
- (4) The fair value and gross unrealized losses related to loan-backed and structured securities, where impairments have not been recognized, that have been in a continuous loss position for 12 months or longer at March 31, 2022 is \$20.2 million and \$2.2 million, respectively. The fair value and gross unrealized losses related to loan-backed and structured securities, where impairments have not been recognized, that have been in a continuous unrealized loss position for less than 12 months at March 31, 2022 is \$27.0 million and \$543.0 thousand, respectively. All of the securities discussed above are rated investment grade by at least one nationally recognized statistical ratings organization, except for the security where an other than temporary impairment was taken and have excess credit coverage within each structure and projected cash flows from the underlying collateral that are expected to be sufficient to pay principal and interest.

#### \*Statutory valuation allowance

The Company does not forecast enough taxable income in future tax years in order to recover the deferred tax assets. As a result, a full valuation allowance is being utilized against deferred tax assets.

#### D. Reconciliation of federal income tax rate to actual effective rate:

The significant items causing this difference are as follows:

The provision for federal income taxes incurred is different from that which would be obtained by applying the statutory federal income tax rate to income before income taxes including realized capital gains / losses.

The Company's Net operating and capital loss carry forwards are limited in its aggregate under Section 382 of the Internal Revenue Code. See Note 21C. This limitation is reflected in the statutory valuation allowance determination. The cumulative remaining balance of net operating loss carry forwards subject to the Section 382 limitation at March 31, 2022 is approximately \$150.9 million. The cumulative remaining Section 382 limitation at March 31, 2022 is approximately \$10.6 million.

#### F. The Company's federal income tax return is not consolidated with any other entities

The Company's tax return is not consolidated with any other entities.

# G. Income tax loss contingencies

In November 2015, the Internal Revenue Service ("IRS") concluded its examination of income tax returns for ACA through 2008 tax year. No material adjustments arose as a result of the audit in relation to the financial position or results of operations of the Company for the tax years that were examined. As of March 31, 2022, no material adjustments are expected for tax years for which the statute of limitations remains open. In addition, the Company does not have any material income tax loss contingencies.

#### H. Repatriation Transition Tax

Not applicable

#### I. Alternative Minimum Tax (AMT) Credit

The Company received a refund in 2019 relating to the utilization of AMT tax credits in the amount of \$389,980. At March 31, 2022, the Company has established a receivable in the amount of \$389,980 relating to the expected refund to be received in 2022.

### 10. INFORMATION CONCERNING PARENT, SUBSIDIARIES, AFFILIATES AND OTHER RELATED PARTIES

- A. & B. There were no transactions with parent, affiliates or other related parties in 2022 or 2021.
  - C. Not applicable.
  - D. The Company has \$79 thousand net payable to subsidiaries at March 31, 2022 and December 31, 2021.
  - E. The Company has no material management or service contract with any related parties.

# **NOTES TO FINANCIAL STATEMENTS**

- F. Except as discussed in Note 6, the Company has no guaranties or undertakings for the benefit of an affiliate or related party.
- G. The Company's common stock is owned 100% by Manifold Capital, LLC (ACACH), a Delaware limited liability company, legal successor to Manifold Capital Corp. (formerly ACA Capital Holdings, Inc.), a Delaware corporation. As of April 7, 2016, ACACH is a wholly owned subsidiary of Broadside Financial Ltd., a British Virgin Island limited company that is also ACACH's sole member. Effective at the closing of the restructuring transaction entered into on August 8, 2008, ACACH and its wholly owned subsidiaries disclaimed control over the Company. This disclaimer of control was approved by the MIA. See Note 21.C.(2) for a discussion of the restructuring transaction.
- H. The Company's majority common shareholder and ultimate parent, ACACH, is not owned directly or indirectly via any of the Company's downstream subsidiaries or controlled or affiliated entities. See Note 21.C.(2) for information regarding the ownership structure of the Company following the closing of its restructuring transaction that took place on August 8, 2008. See Note 21.C.(2) for a discussion of the restructuring transaction.
- I. The Company holds no investment in any subsidiary, controlled or affiliated entity that exceeds 10% of its admitted assets.
- J. The Company did not impair any subsidiary, controlled or affiliated entity in 2022 or 2021.
- K. Not applicable.
- L. The Company does not hold an investment in a downstream noninsurance holding company.
- M. Not applicable.
- N. Not applicable.
- O. Not applicable.

#### 11. DEBT

- A. As of March 31, 2022 and December 31, 2021, the Company had no capital notes or other debt.
- B. As of March 31, 2022 and December 31, 2021, the Company had no Federal Home Loan Bank (FHLB) Agreements.

# 12. RETIREMENT PLANS, DEFERRED COMPENSATION, POSTEMPLOYMENT BENEFITS AND COMPENSATED ABSENCES AND OTHER POSTRETIREMENT BENEFIT PLANS

- A. The Company has no Defined Benefit Plan.
- B. D. Not applicable.
  - E. The Company sponsors a qualified defined contribution plan, which covers all full-time employees of the Company as of their start date with the Company. Eligible participants may contribute a percentage of their salary, subject to IRS limitations. The Company's contributions to the plan are based on a fixed percentage of employees' contributions subject to IRS limitations. For the three month periods ended March 31, 2022 and 2021, the Company recognized expense in the amount of \$57.3 thousand and \$67.3 thousand for the defined contribution plan, respectively.
  - F. The Company has no Multi-employer Plan.
  - G. The Company has no Consolidated/Holding Company Plan.
- H. & I. The Company provides postemployment benefits to its employees. The benefits include severance and temporary continuation of certain benefits, such as healthcare, for terminated employees. Amounts are reflected in the financial statements, as Employee Relations and Welfare expenses, when it is probable that the employee will be entitled to the benefit and the amount can be reasonably estimated.

### 13. CAPITAL AND SURPLUS, DIVIDEND RESTRICTIONS AND QUASI-REORGANIZATION

- A. The Company has 1,000,000 shares of common stock authorized, issued and outstanding with a par value of \$15.00 per share. See Note 10.G.
- B. The Company has no preferred stock outstanding.
- C. As part of the Company's restructuring discussed in Note 21.C.(2) below, the MIA Order restricts the Company from paying dividends without the prior approval of the Commissioner.
- D. No dividends were paid in 2021 or 2020.
- E. The Company had negative earned surplus at March 31, 2022 and December 31, 2021; therefore, no dividends can be paid in 2022 pursuant to Maryland Insurance Law. Negative earned surplus represents the amount reported in the Statement of "Assets, Liabilities, Surplus and Other Funds" under the line item entitled, "Unassigned funds (surplus)".
- F. There are no restrictions on unassigned surplus.
- G. The Company is not a mutual company.
- H. The Company holds no stock for special purposes.
- I. The Company holds no special surplus funds.
- J. The portion of unassigned surplus represented by cumulative unrealized capital losses is \$652,036.

As part of the restructuring transaction which took place on August 8, 2008, surplus notes with a face amount of \$1 billion were issued. See Note 21.C.(2) for a description of the notes. These notes were recorded in the surplus notes section of the balance sheet along with an offsetting entry to a contra account (see Note 1.A.). All payments made under the surplus notes require advance approval of the MIA.

The Surplus Notes provide that, on or before July 15, 2013 and on every anniversary thereafter, ACA, as obligor, shall seek regulatory approval from the MIA to make a payment on the Surplus Notes to the holders thereof. ACA has made these annual requests to the MIA. For the first time, on June 17, 2019, the MIA approved a one-time payout of \$5.6 million relating to the July 2018 request. On November 25, 2020, the MIA approved a payment of \$11.0 million relating to ACA's July 2019 and July 2020 requests. ACA recorded an accrued liability at December 31, 2020 for this payment which was made on January 11, 2021. On September 22, 2021, the MIA approved another payment of \$11.0 million relating to ACA's July 2021 request. ACA recorded an accrued liability at September 30, 2021 for this payment which was made on October 21, 2021.

L.&M. The Company has not gone through any quasi-reorganization.

#### 14. CONTINGENCIES

#### A. Contingency Commitments

The Company has no contingent commitments.

#### B. Assessments

The Company has no assessments other than those arising in the normal course of business. Such assessments are not material.

#### C. Gain Contingencies

The Company has no gain contingencies.

We have from time to time filed for damages, reserved rights and/or delivered notices of potential claims both to private parties and governmental entities, agencies and instrumentalities. We continually seek opportunities to obtain restitution and compensation for losses and related expenses incurred on previously issued financial guaranty insurance policies and on investment losses. The outcome of any such efforts remains uncertain at this time.

#### D. Claims Related Extra-Contractual Obligations and Bad Faith Contingency Losses Stemming from Lawsuits

No losses were paid or incurred on claims related extra-contractual obligations and bad faith contingency losses stemming from lawsuits during the period of this statement.

Set forth below are descriptions of lawsuits where the Company is currently defending itself which could possibly result in loss payments.

The Company (specifically, ACA Management, L.L.C.) is one of many defendants in an action originally filed in 2008 in the First Judicial District Court, in Santa Fe, New Mexico by Frank Foy on behalf of the State of New Mexico. The complaint alleges that Vanderbilt Capital Advisors (and certain affiliates) engaged in an unlawful "pay to play" scheme with various New Mexico state officials, causing two New Mexico state agencies to purchase certain worthless CDO investments, including some with which the Company was allegedly connected. The complaint seeks compensatory damages in excess of \$90 million, plus interest and civil penalties which the plaintiffs assert raise the claim to several hundred million dollars under certain New Mexico statutes, including the Fraud Against Taxpayers Act ("FATA"). Further, the complaint seeks to impose joint and several liability on all defendants. In April 2010, the then-presiding judge ruled that the retroactive nature of FATA was unconstitutional. The ruling was affirmed by the New Mexico Court of Appeals. However, on June 25, 2015, the Supreme Court of the State of New Mexico reversed and held that FATA is constitutional. The New Mexico Supreme Court also consolidated multiple related cases and reassigned the consolidated proceeding to a new district judge. On June 6, 2017, the district court granted both the New Mexico Attorney General's motion to dismiss and Vanderbilt's motion to confirm its settlement with the New Mexico Attorney General. The order was entered September 8, 2017. On October 8, 2017, Frank Foy appealed the dismissal. The State of New Mexico twice unsuccessfully tried to dismiss the appeal. On June 9, 2020, the New Mexico Court of Appeals affirmed the rulings of the district court approving the settlement negotiated by

# **NOTES TO FINANCIAL STATEMENTS**

the New Mexico Attorney General and dismissing Foy's claims in their entirety. On June 24, 2020 Foy moved for rehearing and on June 30, 2020 the New Mexico Court of Appeals denied the motion. On July 30, 2020 Foy sought further review by petitioning the New Mexico Supreme Court for writs of certiorari. On August 13, 2020, the New Mexico Supreme Court denied the writ of certiori. On October 26, 2020, Foy filed a motion for rehearing. That court denied the motion on April 15, 2022 To the extent activity directly involving the Company resumes in the case, the Company intends to continue to defend itself vigorously.

Various lawsuits against the Company have arisen in the course of the Company's business. Contingent liabilities arising from litigation, income taxes and other matters are not considered material in relation to the financial position or the results of operations of the Company.

#### 15. LEASES

#### A. Lessee Operating Lease

- (1) The Company has a lease for office space at 555 Theodore Fremd Avenue in Rye, NY with a commencement date of September 1, 2016 and a termination date of November 30, 2021. In April 2021, the Company signed a lease extension for smaller office space within the same building commenced April 15, 2021 until November 30, 2023. The Company's rental expense for the three months periods ended March 31, 2022 and 2021 was \$28.6 thousand and \$34.4 thousand, respectively.
- (2) At April 1, 2022, considering the lease extension commenced April 15, 2021, the minimum future lease payments under the leases are as follows:

(1) – (4) Except for that discussed below, the Company has no financial instruments with off-balance sheet risk.

While the Company establishes reserves for losses on obligations which are in default as to payment (see Note 1.C.(11) and Note 21.C.(1)), the risk of loss under the Company's guaranties extends to the full amount of unpaid principal and interest on all debt obligations it has guaranteed (see description of financial guaranty insurance in Note 21.C.(4)). Net par outstanding in the tables below reflect only the outstanding principal balance for capital appreciation bond obligations that the Company has insured. The Company reports its remaining obligation, including any accreted values, as an interest obligation.

(2) Assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3):

Not applicable

- (3) The Company's policy is to recognize transfers in and out at the end of the reporting period, consistent with the date of the determination of fair value.
- (4) In accordance with SSAP 100, the valuation techniques used in measuring fair values are based on the following:
  - Level 1: Fair value measurements that are quoted prices (unadjusted) in active markets that the Company has the ability to access for identical assets or liabilities.
  - Level 2: Fair value measurements, based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable at commonly quoted intervals.
  - Level 3: Fair value measurements, based on certain inputs which are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

### 21. OTHER ITEMS

A. Extraordinary items

The Company had no extraordinary items during 2022 and 2021.

### **NOTES TO FINANCIAL STATEMENTS**

B. Troubled Debt Restructurings: Debtors

The Company had no troubled debt restructurings during 2022 and 2021. See also Note 5.B.

- C. Other Disclosures
  - (1) Description of Significant Risks and Uncertainties
- As discussed in Note 1.C. (11), ACA recognizes losses and establishes related loss reserves on bond obligations it has insured upon the initial payment default by the issuer of such bond obligations (under the Company's accounting policy, the initial payment default is generally considered the incident which gives rise to a claim and triggers loss recognition relating to the incident) or when an IBNR reserve component is established. The loss recognized by ACA upon a payment default or an IBNR component represents the Company's best estimate of its ultimate loss over the life of the policy, discounted to reflect the time value of money. However, ACA may also have policies in-force upon which it believes that it is probable that payment defaults will occur in the future. Such expected future losses (hereafter referred to as "Off-Balance Sheet Losses") are not recorded by the Company in the accompanying Statement of Assets, Liabilities, Surplus and Other Funds at March 31, 2022 and December 31, 2021 because a payment default has not yet occurred. Due to the establishment of an IBNR reserve component to loss reserves in 2019, there are no Off-Balance Sheet Losses at March 31, 2022 and December 31, 2021.
- The Company is exposed to economic and political risks associated with its insurance guaranties (see Note 16). The extent and duration of any future deterioration in economic or political factors is unknown, as is the effect, if any, on potential claim payments and the ultimate amount of losses the Company may incur on obligations it has guaranteed. As discussed in Note 36, the Company classifies its insured in-force portfolio in one of four credit quality categories. As noted therein, as of March 31, 2022, the Company had insured obligations with outstanding principal totaling \$61.7 million classified in Category 4, which means that it either has paid claims on such exposures or expects to pay claims on such exposures in the future. In addition, as of such date, the Company had insured obligations with outstanding principal totaling \$12.6 million classified in Category 3, which means those credits have materially violated financial and operational covenants and require remedial action to avoid further performance deterioration. As discussed in Note 16, the risk of loss under the Company's guaranties extends to the full amount of unpaid principal and interest on all debt obligations it has guaranteed. No assurance can be provided that further deterioration in ACA's insured guaranties will not occur resulting in a further migration of insured exposure to categories 3 and 4 or that ACA will not incur losses that may be materially in excess of what it currently estimates. Notwithstanding the de-recognition of contingency reserves that may be approved by the Maryland Insurance Administration in the future, no assurance can be given that the recognition of such losses in the future will not cause the Company to fail to comply with its regulatory required minimum policyholders' surplus requirement of \$750,000. However, the Company believes that its policyholders' surplus will be in excess of Maryland's required minimum policyholders' surplus over the twelve months succeeding the date of the accompanying statement of Assets, Liabilities, Surplus and Other Funds and, that it has sufficient liquidity resources to satisfy its financial obligations as they come due for the foreseeable future.
- Losses incurred and reserves for losses are reported by the Company net of estimated recoveries from salvage and subrogation. Estimated salvage and subrogation are a material component of the Company's incurred losses and reserves for losses (both on-balance sheet and off-balance sheet). Pursuant to the Company's policies of insurance, should the Company pay a claim under a policy, subrogation rights enable the Company to pursue the obligor for recovery of all claims paid or losses incurred. In other cases, the Company may be assigned the rights to certain salvage as reimbursement for any claims paid or losses incurred. An important characteristic to recognize with respect to estimated salvage and subrogation recoveries is that such estimates are subject to both timing and credit risk. In many instances the timing of such recoveries is expected to occur significantly later than the associated claim payments the Company is trying to recover. In addition, in regard to subrogation, credit risk exists with respect to the obligor's ability to ultimately honor the insurer's claim for recoveries, and in respect of salvage, risk exists as to whether such salvage will ultimately be sufficient to recover all of the insurer's claims for recoveries. No assurance can be provided that estimated salvage and subrogation recoveries will be fully collected and any uncollected amount may be material to the Company's financial position and results of operations.
- Establishment of case basis reserves for unpaid losses, loss adjustment expenses and IBNR on the Company's insured guaranties requires the use and exercise of significant judgment by management, including estimates regarding the severity of loss and the amount and timing of claim payments and recoveries on a guaranteed obligation. Case basis and IBNR reserves reflect management's best estimate of the present value of the Company's ultimate loss and not the worst possible outcome. Actual experience may, and likely will, differ from those estimates and such difference may be material due to the fact that the ultimate dispositions of claims are subject to the outcome of events that have not yet occurred and, in certain cases, will occur over many years in the future. Examples of these events include changes in the level of interest rates, credit deterioration of guaranteed obligations, changes in the value of specific assets supporting guaranteed obligations, willingness of the obligor or sponsor to honor its commitments, changes in the expected timing of claims payments and recoveries, and changes in the amounts of expected claims payments and recoveries. Both qualitative and quantitative factors are used in making such estimates. Each quarter, in connection with the preparation of its financial statements, the Company reevaluates all such estimates. Changes in these estimates may be material and may result in material changes in the Company's policyholders' surplus. Any estimate of future costs is subject to the inherent limitation on management's ability to predict the aggregate course of future events. It should, therefore, be expected that the actual emergence of losses and claims will vary, perhaps materially, from any estimate. The risk of loss under the Company's guaranties extends to the full amount of unpaid principal and interest on all debt obligations it has guaranteed (see Note 16).
- The Company is involved from time to time in a number of legal proceedings, both as plaintiff and defendant, as well as regulatory inquiries and investigations. Management cannot predict the outcomes of any proceedings and other contingencies with certainty. In addition, it is not possible to predict whether additional suits will be filed or whether additional inquiries or investigations will be commenced. The outcome of some of these proceedings and other contingencies could require the Company to take or refrain from taking actions which could have a material adverse effect on its business, financial position or cash flows or could require the Company to pay (or fail to receive) substantial amounts of money. Additionally, prosecuting and defending lawsuits and proceedings has caused the Company to incur significant expenses.
- ACA has experienced and likely will continue to experience substantial tax losses in the conduct of its business.

Section 382 of the Internal Revenue Code ("Section 382") contains rules that limit the ability of a corporation that experiences an "ownership change" to utilize its net operating loss carryforwards ("NOLs") and certain built-in losses recognized in periods following the ownership change. An ownership change is generally any change in ownership of more than 50 percentage points of a corporation's stock over a rolling 3-year period. Accordingly, the aggregate ownership change ("Aggregate Ownership Change") at any particular date represents the summation of the amount of ownership change resulting from all transactions in a corporation's stock occurring during the three year period ended on such date. These rules generally operate by focusing on ownership changes among shareholders owning directly or indirectly 5% or more of the

### **NOTES TO FINANCIAL STATEMENTS**

stock of a corporation or any change in ownership arising from a new issuance of stock by the corporation. For purposes of the aforementioned test, ACA's surplus notes are considered stock and ACA's surplus note holders are considered shareholders.

Under Section 382, the transfer of ACA's surplus notes can cause an ownership change that would limit ACA's ability to utilize its NOLs and recognize certain built-in losses. Depending on the resulting limitation, a significant portion of ACA's NOLs could be deferred or could expire before ACA would be able to use them to offset positive taxable income in current or future tax periods.

ACA experienced an ownership change for purposes of Section 382 in 2014. As a consequence of the ownership change, ACA's ability to use its NOLs will be limited to approximately \$5.3 million on an annual basis.

Since the ownership change mentioned above, the Company has generated significant net operating losses in 2014, 2015, 2016, 2019, and 2021. Another ownership change may further limit the initial NOL limitation and could impact the ability to fully utilize NOLs generated in 2014, 2015, 2016, 2019, and 2021.

• As a result of the COVID-19 pandemic and related governmental actions to curtail social and economic activity, uncertainties have arisen which may negatively affect the financial position, results of operations and cash flows of the Company. The Company has observed material financial impacts to a number of our insured obligations, particularly in hospitality, student housing and toll road sectors as well as certain investment securities, particularly airline corporate obligations. The duration of these uncertainties and the ultimate financial effects, including impacts on additional sectors, credits and investment securities cannot fully be determined at this time.

#### (2) Restructuring Transaction

As a result of adverse developments in the credit markets generally and the mortgage market specifically that began in the second half of 2007 and continued to deepen in 2008 and thereafter, the Company experienced material adverse effects on

its business, results of operations, and financial condition, which resulted in significant downgrades of the Company's financial strength ratings by Standard & Poor's Ratings Services ("S&P") and, ultimately, a restructuring of the Company to avoid a regulatory proceeding (the "Restructuring Transaction"). The Restructuring Transaction, which was consummated on August 8, 2008, was comprised of three main components (see also Note 10.G.).

The first component of the Restructuring Transaction consisted of a Global Settlement Agreement whereby insured credit swap counterparties' claims were settled in consideration for a cash payment of approximately \$209 million and surplus notes with a face value of approximately \$950 million. In the aggregate \$1 billion face amount of surplus notes were issued in connection with the Restructuring Transaction. Of such amount, the aforementioned insured credit swap counterparties received \$950 million as previously discussed and the balance of \$50 million was issued to ACACH. While certain of the surplus notes issued to the insured credit swap counterparties were issued to be non-voting at the request of certain of such counterparties, the surplus notes issued to the counterparties, in the aggregate, represent a 100% voting interest in the Company. The surplus notes issued to ACACH are all non-voting.

The second component of the Restructuring Transaction provided for the settlement of a \$100 million medium term note guaranteed by the Company. This obligation was settled by a cash payment of approximately \$48 million to the note holders in 2008 and the relinquishment by the Company of investments in CDO equity with an estimated value of \$2.5 million. Of the total cash settlement, approximately \$32 million was paid out of a cash collateral account supporting the issued note while the remaining amount of approximately \$16 million was funded by cash from the Company and its other subsidiaries.

The third component of the Restructuring Transaction centered on the Intercompany Agreement which treated ACACH and its non-ACA FG subsidiaries as one sub-group and ACA FG and its subsidiary as a separate sub-group. By its terms, the Intercompany Agreement provided for the cancellation of a previously issued intercompany surplus note as well as intercompany balances between the Company's sub-group and the ACACH sub-group. It also provided for a global release of liability among the two sub-groups. In general, the release discharges the entities from any and all actions, cause of action, suits, debts, liens, contracts, rights and other legal obligations against each other, except those provided for in the Intercompany Agreement.

Subsequent to the closing of the Restructuring Transaction, the Company is required to and has operated under an order issued by the MIA, Case No.: MIA: 2008-08-011 dated August 7, 2008 (the "Order"). The Order provides, among other things, that the Company operate as a run-off company. In connection with the Order, following the Restructuring Transaction, the Company wound down all subsidiaries no longer necessary for the conduct of its ongoing business, including 73 special purpose entities created for the insured credit swap and CDO asset management businesses.

#### (3) Description of the Company's On-Going Strategic Plan

Management is actively seeking to (i) remediate deteriorated insured exposures to minimize claim payments, maximize recoveries and mitigate ultimate losses, (ii) increase the Company's capital, surplus, liquidity and claims paying resources, (iii) realize maximum value from various legal proceedings described in Note 14.C. and from any other rights and remedies the Company may have, and (iv) take other actions to enhance its financial position (hereafter collectively referred to as "Strategic Actions"). In regard to the Strategic Actions, the Company is actively pursuing or exploring a number of options available to it to enhance the Company's policyholders' surplus or liquidity position or address other challenges that the Company faces. The Company has taken steps to reduce operating expenses and expects to take further steps in the future as the insured portfolio and remediation activities decrease. No assurances can be given that the Company will be successful in completing any of the aforementioned actions. Furthermore, certain of the Strategic Actions contemplated by the Company may be outside the ordinary course of the Company's operations or its control and may require consents or approvals of parties outside of the Company, including the MIA.

#### (4) Description of Financial Guaranty Insurance

Financial guaranty insurance provides an unconditional and irrevocable guaranty to the holder of a valid debt obligation with an enforceable guaranty of full and timely payment of the guaranteed principal and interest thereon when due. Financial guaranty insurance adds another potential source of repayment of principal and interest for an investor, namely the credit quality of the financial guarantor. Generally, in the event of any default on an insured debt obligation, payments made pursuant to the applicable insurance policy may not be accelerated by the holder of the insured debt obligation without the approval of the insurer. While the holder of such an insured debt obligation continues to receive guaranteed payments of principal and interest on schedule, as if no default had occurred, and each subsequent purchaser of the obligation generally receives the benefit of such guaranty, the insurer normally retains the option to pay the debt obligation in full at any time.

# **NOTES TO FINANCIAL STATEMENTS**

Also, the insurer generally has recourse against the issuer of the defaulted obligation and/or any related collateral for amounts paid under the terms of the insurance policy as well as pursuant to general rights of subrogation. The issuer of an insured debt obligation generally pays the premium for financial guaranty insurance, either in full at the inception of the policy, as is the case in most public finance transactions, or in periodic installments funded by the cash flow generated by related pledged collateral, as is the case in most structured finance and international transactions. Typically, premium rates paid by an issuer are stated as a percentage of principal and interest (in the case of public finance transactions) or the total principal (in the case of structured finance and international transactions) of the insured obligation. Premiums are almost always non-refundable and are invested upon receipt. See Note 1.C.(1) for a description of NAIC SAP for premium revenue recognition.

D. Business Interruption Insurance Recoveries

Not applicable.

E. State Transferable and Non-transferable Tax Credits

Not applicable.

- F. Subprime Exposure Related Risk
  - (1) The Company has no exposure to subprime mortgages among its in-force guaranties.
  - (2) The Company has no investments consisting of direct exposure to subprime mortgages.
  - (3) The Company has the following indirect exposures to sub-prime mortgages included in its investment portfolio at March 31, 2022:

- (4) The Company has no outstanding loss reserve related to subprime mortgages.
- G. Insurance-linked Securities

Not applicable.

#### 22. EVENTS SUBSEQUENT

The Company reviewed all transactions and other matters that have occurred from April 1, 2022 through May 10, 2022 (the date the financial statements were available to be issued) to assess whether such transactions and matters qualify as "subsequent events" and require adjustment to or disclosure in the financial statements as of and for the period ended March 31, 2022. No matters came to management's attention that would require adjustment to or disclosure in the financial statements.

#### 23. REINSURANCE

A. Unsecured Reinsurance Recoverables

The Company does not have an unsecured aggregate recoverable for losses paid and unpaid, including IBNR, loss adjustment expenses and unearned premium with any individual reinsurers, authorized or unauthorized, that exceed 3% of the Company's policyholder surplus.

B. Reinsurance Recoverable in Dispute

The Company has no reinsurance recoverable in dispute.

C. Reinsurance Assumed and Ceded

- (2) There are no contingent commission or profit sharing arrangements.
- (3) Not applicable
- D. Uncollectible Reinsurance

The Company has no uncollectible reinsurance balances.

E. Commutation of Ceded Reinsurance

The Company had no commutations of ceded reinsurance in 2022.

### **NOTES TO FINANCIAL STATEMENTS**

#### F. Retroactive Reinsurance

The Company has no retroactive reinsurance contracts.

#### G. Reinsurance Accounted for as a Deposit

The Company did not account for any reinsurance as deposits.

- H. Not applicable.
- I. Not applicable.
- J. Not applicable.

#### 24. RETROSPECTIVELY RATED CONTRACTS AND CONTRACTS SUBJECT TO REDETERMINATION

The Company has not entered into any retrospectively rated contracts or contracts subject to redetermination, including any provisions of the Affordable Care Act.

#### 25. CHANGE IN INCURRED LOSSES AND LOSS ADJUSTMENT EXPENSES

For the three month period ended March 31, 2022, the Company recorded a net provision for losses incurred of \$1.4 million, which consisted of \$1.2 million of net loss development on accident years prior to 2022 ("prior accident year claims"), and \$0.2 million of discount accretion. The Company reflects loss remediation bond buybacks as loss payments and reflects a corresponding modeled reduction to estimated future losses. Loss remediation bond purchases may relate to policies where case basis reserves have already been established in the statutory financial statements or for policies related to IBNR. See footnote 21C(1). During the three month period ended March 31, 2022, the Company did not purchase any bonds for loss remediation purposes. As of March 31, 2022, the Company's liability for unpaid losses was \$23.2 million, which related to seven insured transactions, with a remaining aggregate in-force par outstanding of \$38.5 million, excluding the aforementioned case reserves. The aggregate in-force par outstanding of \$38.5 million represents the remaining maximum amount of par exposure subject to loss in regard to these seven insured transactions. See Note 36A.(3) b for additional information regarding the Company's reserves for losses and loss adjustment expenses.

As discussed in Note 21.C.(1), the Company's estimate of its ultimate Off-Balance Sheet Losses at March 31, 2022 was zero.

For the three month period ended March 31, 2021, the Company recorded a net provision for losses incurred of \$1.9 million, which consisted of \$1.9 million of net unfavorable loss development on accident years prior to 2021, and \$22.1 thousand of discount accretion. During the three month period ended March 31, 2021, the Company did not purchase any bonds for loss remediation purposes. As of March 31, 2021, the Company's liability for unpaid losses was \$25.1 million, which related to eighteen insured transactions, with a remaining aggregate in-force par outstanding of \$125.1 million, excluding the aforementioned case reserves. The aggregate in-force par outstanding of \$125.1 million represents the remaining maximum amount of par exposure subject to loss in regard to these eighteen insured transactions.

The Company's estimate of its ultimate Off-Balance Sheet Losses at March 31, 2021 is zero.

Refer to Note 1.C.(11) and Note 21.C.(1) for further information regarding the Company's reserves for losses and loss adjustment expenses.

### 26. INTERCOMPANY POOLING ARRANGEMENTS

The Company has no intercompany pooling arrangements.

### 27. STRUCTURED SETTLEMENTS

- A. The Company has not entered into any structured settlements for reserves no longer being carried.
- B. The Company does not hold any annuities under which the Company is the payee and the recorded asset balance due exceeds 1% of surplus.

### 28. HEALTH CARE RECEIVABLE

- A. The Company has no pharmaceutical rebate receivables as of March 31, 2022 and December 31, 2021.
- B. The Company has no risk sharing receivables as of March 31, 2022 and December 31, 2021.

#### 29. PARTICIPATING POLICIES

The Company never issued participating policies.

#### 30. PREMIUM DEFICIENCY RESERVE

The Company has no premium deficiency reserves. The Company includes anticipated investment income as a factor in the premium deficiency calculation.

#### 31. HIGH DEDUCTIBLES ON UNPAID CLAIMS

The Company has no high deductibles on unpaid claims.

#### 32. DISCOUNTING OF LIABILITIES FOR UNPAID LOSSES OR UNPAID LOSS ADJUSTMENT EXPENSES

A. Not applicable

B.&C. The Company's case reserves for unpaid losses are discounted on a non-tabular basis. The discount rate used at March 31, 2022 and December 31, 2021 was 3.3%. The discount rate is based on the average rate of return on the Company's admitted assets determined at the end of each year. The net amount of discount associated with the Company's loss reserves at March 31, 2022 was \$4.4 million. Loss adjustment expenses are not discounted.

### **NOTES TO FINANCIAL STATEMENTS**

#### 33. ASBESTOS/ENVIRONMENTAL RESERVES

The Company does not write this line of business and therefore has no asbestos/environmental reserves.

#### 34. SUBSCRIBER SAVINGS ACCOUNTS

The Company has no subscriber savings accounts.

#### 35. MULTIPLE PERIL CROP INSURANCE

The Company has never written this line of business.

#### 36. FINANCIAL GUARANTY INSURANCE

A.

(1) a. The Company has not recorded unearned premiums related to installment payments.

Premiums charged in connection with the issuance of financial guaranty insurance are received either upfront at the inception of an insurance contract or in installments (usually monthly, quarterly, semi-annually or annually) over the life of the underlying insured obligation. All of the Company's remaining in-force business was written on an upfront basis with the exception of a de minimis amount of business written on an installment basis.

b. + c. The Company has not recorded premiums receivable on installment contracts.

- (2) a. The amount of premium revenue that has been accelerated during the three month periods ended March 31, 2022 and 2021 was \$0 million and \$0.4 million, respectively.
  - b. Schedule of the future expected earned premium revenue on contracts written on an upfront basis as of March 31, 2022:

1.	2nd Quarter 2022	116,945
	3rd Quarter 2022	310,187
	4th Quarter 2022	193,695
	Year 2023	691,728
	Year 2024	653,995

2.	2027 through 2031	1,756,272
	2032 through 2035	500,628
	Total	\$ 5,566,842

#### (3) Claim liability:

- a. The Company used a rate of 3.3% to discount the claim liability.
- b. Significant components of the change in the claim liability for the period:

Reserves for losses at December 31, 2021	\$ 22,013,493
Accretion of the discount  New reserves for defaults of insured contracts	180,868
Development on prior accident years reserves	987,233 <sup>(2)</sup>
Change in deficiency reserves	-
Change in incurred but not reported claims	 
Total change in reserves	1,168,101
Reserves for losses at March 31, 2022	\$ 23,181,594

 $<sup>^{(1)}</sup>$  Represents 2022 accident year loss development of \$0, and claim payments of \$0.

#### (4) The Company's credit quality classifications are:

#### a. Category 1: Fully Performing

Credits are fully performing. Covenants have been met, financial reporting is timely and complete, and there have been no significant negative deviations from expected performance.

#### Category 2: Watch

Credits are performing below expected levels. Some covenants have been violated, projected budget and/or cash flow has not been achieved, operating performance or financial position is weakened. Although operating results are below underwriting expectations, current and projected revenues are adequate to service debt.

### Category 3: Deteriorating

Credits show significant performance declines. Covenant violations are recurring and material; cashflow is significantly below projections, operating results are materially impaired. Corrective action is required to arrest credit deterioration and avert a longer-term risk of payment default.

#### Category 4: Paid or Expected Claim

Credits show material decline in creditworthiness and ability to pay. Operating results are increasingly negative, unreimbursed draws on debt service reserves have been made; payment defaults have occurred or are expected, and loss reserves have been established or are expected to be established in the financial statements.

b. & c. Risk management activities are performed by ACA's portfolio management department. Portfolio analysts monitor all insured transactions in the portfolio to determine whether their financial performance is consistent with underwriting expectations and to identify any deterioration in the obligor's ability or willingness to pay insured debt service. Portfolio

<sup>(2)</sup> Represents loss development of \$1,258,753, and net claim paid of \$271,520.

# **NOTES TO FINANCIAL STATEMENTS**

management staff are also responsible for recommending and undertaking remedial actions to prevent or mitigate losses. Expenses related to risk management activities are recorded as either loss adjustment expenses or other underwriting expenses in the statement of income and the related liabilities are recorded as loss adjustment expenses or other expenses in the statement of financial position.

All transactions in the insured portfolio are assigned one of four internal credit quality classifications that reflect the current and expected performance of the obligor. Credit quality classifications of insured transactions are reviewed and updated on a regular basis as analysts obtain more current financial and market information from the obligor, the trustee, or from public sources such as rating agencies and fixed income analysts. The frequency with which individual obligors are reviewed is based on ACA's judgment of potential performance volatility and varies according to credit classification, sector, geography, size of exposure, and exogenous events.

B. The risk of loss under the Company's guaranties extends to the full amount of unpaid principal and interest on all debt obligations it has guaranteed. Net par outstanding in the table below reflects only the outstanding principal balance for capital appreciation bond obligations that the Company has insured. The Company reports its remaining obligation, including any accreted values, as an interest obligation.

The Company purchases ACA insured bonds periodically in the marketplace when available and the price meets internal prescribed limits for Category 4 rated credits. For accounting purposes, the Company reflects the purchase as a loss payment and carries the bond at a zero value. Unless the bond is cancelled with the trustee, the par value remains outstanding. At March 31, 2022, the par value outstanding of Category 4 bonds purchased and not cancelled is \$4.3 million.
